

# ABOUT US

Welcome to My Patio, where our friendly team of expert craftsmen and designers specialise in the manufacturing, design, and fabrication of Australian steel patios, carports and pergolas. With a combined experience of over 15 years, we take pride in using top-quality Australian-made products to create outdoor spaces that seamlessly blend quality, functionality, and aesthetic appeal. Each patio is meticulously crafted in-house, reflecting our commitment to excellence and innovation.

## Just Build it

## Insulated Raised Flat Patio

An Insulated Flat Patio provides year-round comfort, offering a warm escape from the elements with its advanced thermal protection, making it perfect for outdoor living in any season.

## Flat Patio

A flat roof patio provides an affordable way to expand outdoor living space, effortlessly complementing homes that need clear views from second-story windows or wide soffits. Its simple design maximizes functionality while preserving a clean, unobtrusive look, making it a great option for enhancing homes with minimal investment.

## Raised Skillion

A Raised Skillion patio features a sleek, sloping roof that elevates the outdoor space for a modern, open feel. Positioned above ground level, it offers a unique vantage point, perfect for enjoying unobstructed views and maximising airflow. It's contemporary design and practical structure create an inviting space for relaxation or entertaining, blending seamlessly with the environment.

## Why Us?

My Patio is your trusted patio builder in Perth. We provide free, no-obligation quotes and are committed to exceeding your expectations from beginning to end. Contact us today and discover why My Patio is the ideal choice for your home in Perth.

## Gable

A gable patio is an outdoor structure with a roof that forms a triangular, inverted V-shape, similar to a house's gable. This design provides higher ceilings and improved airflow, making it a favored option for creating both stylish and practical outdoor spaces.

## Carport

A carport is a covered structure, either attached to a house or free-standing, designed to protect vehicles from weather conditions like rain, snow, and sun. Unlike a garage, a carport typically has open sides and is supported by posts or columns, providing a practical and budget-friendly option for vehicle shelter.
